SYNTHETIC DEMO DATA This alpha uses simulated people, records and AI results. DEMO-0000 IDs are not real Aadhaar or ABHA numbers.

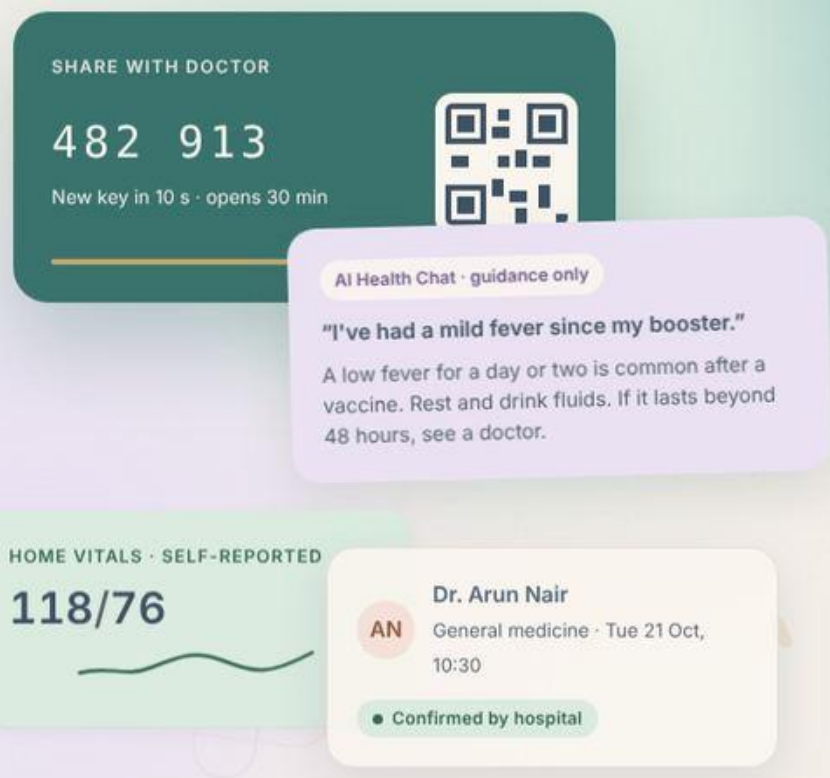

One national health record, with AI that assists — never decides

Your health, connected.

Keep every report, prescription and scan in one place. Share it with a doctor using a key that changes every ten seconds — and end the session whenever you choose.

Create your health account | Log in

- Free for every citizen
- Every access logged
- Works with a basic phone too

42 · demo

Doctor session length
30 min · you can end it

Pilot
Kerala · Pathanamthitta, Kottayam

Languages at launch
English · Malayalam, Hindi next

YOUR RECORD, YOUR KEY

Nobody opens your record without you.

A doctor needs the key on your phone — or your health card and a code sent to your basic phone. Every view is logged, and you see the history.

1. **Show your rotating key**
   A QR and a 6-digit number that change every 10 seconds, used once.
2. **One doctor, thirty minutes**
   They can read and add notes, never edit or delete. You can end the session early.
3. **Emergencies need your contact**
   If you can't share, your emergency contact approves on their phone. Break-glass access is reviewed twice.
4. **See who looked, and when**
   Your access history lists every session. The log can't be edited by anyone.

AI THAT SHOWS ITS WORK

Evidence first. The doctor decides.

Four tools — symptoms, medical images, genomics and vital-sign trends — propose hypotheses. Each is checked against guidelines and research, labelled VERIFIED, SUPPORTED WITH CAUTION or UNCERTAIN, and reviewed by a doctor before you ever see it.

Symptom engine | Image analysis | Genomic analysis | Temporal analysis

FOR DOCTORS

Consult with the whole record — and an assistant that cites its sources

Register as a doctor | Doctor login

- **Scan the patient's key**
  Thirty minutes with the full record — history, scans, lab reports — logged and time-limited.
- **Four AI tools**
  Symptoms, images, genomics and vital-sign trends, each with evidence and a status you agree or disagree with.
- **e-Signed prescriptions**
  Generic names, allergy and interaction warnings, live stock, and a verifiable QR.
- **Voice notes**
  Dictate; check the text; save it to the record. Your words, never edited by the AI.

Your health, connected.

Register with Aadhaar e-KYC and a quick face check. It takes about five minutes, and your ABHA health ID is linked for you.

Create your health account

Public site — Citizens & Doctors · Register — Citizen (e-KYC, face check, ABHA)

SYNTHETIC DEMO DATA Aadhaar e-KYC, face check and ABHA are mock connectors. Never enter a real Aadhaar number.

CareFusion AI

Create your health account

About five minutes. Approved automatically when your checks pass.

1. **Consent** — Privacy and permissions
2. **Your details** — Name, contact, password
3. **Aadhaar e-KYC** — Token only
4. **Face check** — Live match
5. **ABHA** — Health ID
6. **Health profile** — Blood group, contacts
7. **Done** — Approval

Already registered? Log in

No smartphone? An ASHA worker or hospital help desk can register you and print a health card.

Step 1 of 7

Before you start

How CareFusion AI uses your information, in plain words.

Your record is yours
Doctors open it only with your key, for 30 minutes.

Aadhaar is never stored
UIDAI confirms you; we keep a token, not the number.

Everything is logged
You can see who opened your record and when.

- [x] I have read and accept the privacy notice (DPDP Act consent)
  Required.
- [x] Log my location area when I share my record or sign in
  Required for the access log. Area only, never continuous tracking.
- [ ] Use my anonymised data to improve the AI
  Optional and off by default. Change it any time in Settings.

Back

Continue

Public site — Citizens & Doctors · Register — Doctor (HPR, documents, approval)

SYNTHETIC DEMO DATA HPR, e-Sign and document checks are mock connectors.

CareFusion AI

Register as a doctor

Checked against HPR, then approved by your district admin and confirmed by the state.

1. **Citizen account** — Identity link
2. **Registration** — HPR + council
3. **Qualifications** — Degree certificates
4. **Workplace** — Hospital + proof
5. **Security** — MFA + e-Sign
6. **Status** — Approval chain

Your doctor account is separate from your own citizen health record, and can never open it.

Step 1 of 6

Link your citizen account

Every doctor is first a verified citizen. We link the doctor account to that identity.

AN **Arun Nair**
Citizen · ABHA DEMO-0000-5678 · e-KYC and face check verified
● Signed in

How the two accounts work
Use the User / Doctor switch on the login page. Opening a family member's record from the doctor account is allowed but flagged in the log.

Continue

SYNTHETIC DEMO DATA HFR and document checks are mock connectors.

CareFusion AI

Already approved? Admin login

HOSPITAL ADMIN

Register your hospital

We verify the hospital with the Health Facility Registry (HFR). Your district admin approves the account.

1 Hospital (HFR) — 2 Documents — 3 Your account — 4 Submitted

Find your hospital

Enter the HFR ID on your facility certificate.

HFR ID *

DEMO-HFR-KL-0193

Check with HFR

Back

Continue

YOU'LL NEED

Four documents

- Your photo ID
- Authorisation letter from the hospital
- Hospital licence
- Your employee ID

Who approves

The district admin for the hospital's district. Every decision is written to the audit log with a reason.

SYNTHETIC DEMO DATA Drug licence checks are a mock connector for state drug control / CDSCO records.

CareFusion AI

Already approved? Admin login

PHARMACY ADMIN

Register your pharmacy

Government hospital pharmacies and private pharmacies. Your district admin approves the account.

1 Licence — 2 Documents & hours — 3 Your account — 4 Submitted

What kind of pharmacy?

A government hospital pharmacy is linked to its hospital so doctors there can send prescriptions directly.

Government hospital pharmacy
Inside a government hospital

Private pharmacy
Independent or chain store

Linked hospital

Emergency access

Open patient

Open a patient record

Ask the patient for the 6-digit key on their phone. It changes every 10 seconds and works once.

Patient's key

• • • • • •

Demo: type any 6 digits. Session lasts 30 minutes and is logged to the patient.

Open 30-minute session

Patient unconscious or can't share? Use emergency access

Checked in and waiting — Schedule

08	Thomas Varghese Critical K* · ask for his key	Priority
09	Lakshmi Amma Fever day 3 · waiting 12 min	Waiting
10	Ramesh Pillai Hypertension review · waiting 18 min	Waiting

SESSION LENGTH
30 minutes

WHERE IT WORKS
Inside your hospital

How the key works

- **Patient shows key**
  On their Home screen — rotating, single use.
- **You get 30 minutes**
  Read records, run AI tools, prescribe, order tests.
- **Patient sees everything**
  Each file you open appears in their access log live.
- **Session ends**
  Timer runs out, you end it, or the patient ends it.

Recent sessions

JK **Joseph Kurian**
13:40 · 22 min · ended by you

MT **Mini Thomas**
12:15 · 30 min · timed out

ⓘ Keys change every 10 seconds and work once, only inside a registered hospital. If a key fails twice, ask the patient to refresh it on their phone.

Dr. Arun Nair
General medicine

Referral & handover

Send a patient on with a summary they can see, or hand over your shift.

New referral

Draft

Patient: Anjali Menon

Refer to: Cardiology · Medical College Kottayam

Urgency: Routine (2 weeks)

Reason: Rising LDL despite statin; family history of early MI. Please assess.

Send referral | Draft summary with AI

Shift handover · 17:00 to Dr. Sreeja Paul

1 **Thomas Varghese** — K⁺ 6.1 — repeat at 18:00, ECG done — Watch

2 **Lakshmi Amma** — Fever day 3, dengue NS1 pending — Pending

3 **Suresh P.** — Transfer to Kottayam at 19:30 — Transfer

Approve and send handover

✓ AI-drafted summary (simulated) lists open orders, pending results and allergies for each patient. You approve it before it's sent — Dr. Sreeja Paul gets it in her Doctor app at 17:00.

3	2	1
Patients handed over	Results pending	Transfer today

What patients say

Read only · moderated by hospital

Anjali M. 12 Oct
★★★★★
Explained my sugar report in Malayalam and drew a little chart for me. Never felt rushed.

Joseph K. 08 Oct
★★★★★
Saw my lab result within an hour and messaged me the change in tablets.

Sindhu R. 01 Oct
★★★★☆
Teleconsult was smooth. Wait for the video link was 10 minutes.

Babu J. 27 Sep
★★★☆☆
Good doctor, but OP waiting time was over an hour on Monday.

LA **Lakshmi Amma** ★★★★★ today · General medicine
Dr. Arun Nair explained my sugar results clearly and the OP queue moved fast.

TV **Thomas Varghese** ★★★★☆ yesterday · Casualty
Quick attention at night. Waiting area needs more fans.

FN **Fathima N.** ★★★★★ 15 Oct · Maternity
Nurses were kind and the discharge summary came to my app the same day.

RP **Ramesh Pillai** ★★☆☆☆ 14 Oct · Pharmacy
Two of my medicines were out of stock and I had to buy outside.

ADMIN ACCOUNTS

Create a District admin

New admin accounts need two signatures: you request it, then Additional Director (Public Health) confirms. Both are written to the audit log.

Request

Step 1 of 2

Full name *
As on Aadhaar

Official email (optional)
name@gov.in

Covers
Kasaragod

Nomination order number *
e.g. G.O. DEMO-114/2026

Upload the signed order on the next screen.

Sign and send for approval

Two-person sign-off

District admin · Kasaragod

1 **Latha Nair** — Requester · you — Not signed yet

2 **Additional Director (Public Health)** — Second approver — Signs after you

- Neither signer can approve their own account.
- The new admin is verified by Aadhaar e-KYC and a hardware security key.
- Requests expire after 72 hours without the second signature.

ADMIN ACCOUNTS

Create a State admin

New admin accounts need two signatures: you request it, then Deputy Director General (South) confirms. Both are written to the audit log.

Request

Step 1 of 2

Full name *
As on Aadhaar

Official email (optional)
name@gov.in

Covers
Telangana

Nomination order number *
e.g. G.O. DEMO-114/2026

Upload the signed order on the next screen.

Sign and send for approval

Two-person sign-off

State admin · Telangana

1 **R. Venkatesh** — Requester · you — Not signed yet

2 **Deputy Director General (South)** — Second approver — Signs after you

- Neither signer can approve their own account.
- The new admin is verified by Aadhaar e-KYC and a hardware security key.
- Requests expire after 72 hours without the second signature.

SUPPORTED_WITH_CAUTION

Acute fever up in Bihar, eastern UP and Jharkhand

Acute febrile illness in these three states is 1.7× the 5-year baseline for week 42. Children under 15 make up 46% of cases; scrub typhus and Japanese encephalitis tests are pending in 3 districts.

Confidence 69%

- 3.1 lakh cases vs baseline 1.8 lakh
- 46% of cases under 15 years
- Rise follows 3 weeks of flooding in north Bihar

ADMIN ACCOUNTS

Create a Zonal admin

New admin accounts need two signatures: you request it, then Joint Secretary (Digital Health) confirms. Both are written to the audit log.

Request

Step 1 of 2

Full name *
As on Aadhaar

Official email (optional)
name@gov.in

Covers
Jammu & Kashmir

Nomination order number *
e.g. G.O. DEMO-114/2026

Upload the signed order on the next screen.

Sign and send for approval

Two-person sign-off

Zonal admin · Jammu & Kashmir

1 **S. Banerjee** — Requester · you — Not signed yet

2 **Joint Secretary (Digital Health)** — Second approver — Signs after you

- Neither signer can approve their own account.
- The new admin is verified by Aadhaar e-KYC and a hardware security key.
- Requests expire after 72 hours without the second signature.

Admins you manage

4 accounts

NAME	ROLE	COVERS	SINCE	SECURITY KEY
R. Venkatesh	Zonal admin	South zone	1 Jun 2026	Registered
Dr. K. Bose	Zonal admin	East zone	14 Feb 2026	Registered
N. Sharma	Zonal admin	Central zone	3 Mar 2026	Registered
Dr. L. Sangma	Zonal admin (acting)	North-east zone	19 Aug 2026	Registered

Simulated | Share with Dr. Arun Nair | New chat

My lipid report came today. Is my cholesterol bad?

You · 15:40

Your LDL is 142 mg/dL, a little above the 100 your doctor aims for. HDL (48) and triglycerides (160) are close to normal. Atorvastatin usually takes 6–8 weeks to show its full effect, and you started it 3 weeks ago.

Guidance only | Lipid profile · 17 Oct

CareFusion AI · 15:40

Should I take a higher dose?

You · 15:41

Only your doctor can change a dose. I can add this question to your next visit on 21 Oct with Dr. Arun Nair, or you can message him now.

Guidance only | Prescription · e-signed

CareFusion AI · 15:41

What does HbA1c mean? | Side effects of Metformin | Food tips for diabetes | Explain my X-ray

Ask about your health...

THURSDAY, 15 OCTOBER

Doctor, my evening BP was 134/86 yesterday. I had missed the dose. Should I worry?

You · 09:12 · Read

One higher reading after a missed dose is expected. Keep logging morning and evening for a week and share the log with me.

Dr. Arun Nair · 11:40

I have also sent your updated prescription. The Atorvastatin dose stays the same for now.

Prescription_15Oct.pdf e-Signed · 112 KB

Metformin is best taken with food

Taking it with meals lowers stomach upset. If you miss a dose, skip it — don't take two together. Ask your doctor before changing anything.

Requires clinician review

Give · Organ donation

Organ & tissue pledge

A pledge records your wish. Under the Transplantation of Human Organs and Tissues Act, 1994, your family is still asked for consent at the time — so tell them now.

Step 3 of 4 · signing pending · KNOS · Kerala

✓ Your intent — ✓ Family informed — 3 Sign at hospital — 4 Registered with KNOS

Last step: sign at a registered hospital
Take your ABHA card to Demo General Hospital, Pathanamthitta (organ donation desk, ground floor · Mon–Sat, 09:00–16:00). Two witnesses sign with you.

What you'd like to donate

2 selected

- [x] **Kidneys** — Most needed · 2,800 waiting in Kerala
- [ ] **Liver** — Can help two people
- [ ] **Heart** — Within 4–6 hours
- [ ] **Lungs** — Within 6–8 hours
- [ ] **Pancreas** — For type 1 diabetes
- [x] **Corneas** — Up to 6 hours after death
- [ ] **Skin** — For burns patients
- [ ] **Bone & tissue** — Joints, tendons, valves

Select all · Clear

- [ ] Also donate my body for medical education

Save card to wallet (PDF)

Pledges in Kerala

1,84,210 people have pledged · demo figure

Each donor can help up to 8 people. Your pledge stays private until it is needed.

Family & witnesses

Edit contacts

- RM **Ravi Menon · husband** — Next of kin · informed 12 Oct by SMS link — Acknowledged
- SM **Sarojini Menon · mother** — Witness 1 · will come to the hospital — Signing pending
- TK **Thomas Kurian · neighbour** — Witness 2 · not a relative — Signing pending

Send reminder to witnesses

Witness signatures 1 of 2 signed

Under the Transplantation of Human Organs Act, two witnesses sign — one must be a close relative. Ravi has signed; Sarojini's link expires on 24 Oct.

What the pledge means

- **Only after death is certified** — Brain-stem death is certified by a board of 4 doctors, none from the transplant team.
- **Your family still decides** — Doctors ask your next of kin. A pledge helps them say yes with confidence.
- **You can withdraw any time** — One tap here, no reason needed. We tell KNOS within 24 hours.
- **No payment, no sale** — Buying or selling organs is a crime. Allocation follows the state waiting list.

Ask the AI a question · Withdraw pledge

Simulated | Share with Dr. Arun Nair | New chat

My lipid report came today. Is my cholesterol bad?

You · 15:40

Your LDL is 142 mg/dL, a little above the 100 your doctor aims for. HDL (48) and triglycerides (160) are close to normal. Atorvastatin usually takes 6–8 weeks to show its full effect, and you started it 3 weeks ago.

Guidance only | Lipid profile · 17 Oct

CareFusion AI · 15:40

Should I take a higher dose?

You · 15:41

Only your doctor can change a dose. I can add this question to your next visit on 21 Oct with Dr. Arun Nair, or you can message him now.

Guidance only | Prescription · e-signed

THURSDAY, 15 OCTOBER

Doctor, my evening BP was 134/86 yesterday. I had missed the dose. Should I worry?

You · 09:12 · Read

One higher reading after a missed dose is expected. Keep logging morning and evening for a week and share the log with me.

Dr. Arun Nair · 11:40

I have also sent your updated prescription. The Atorvastatin dose stays the same for now.

Prescription_15Oct.pdf — e-Signed · 112 KB

Dr. Arun Nair · 14:30

Please do the HbA1c test before your follow-up on 21 Oct.

Metformin is best taken with food

Taking it with meals lowers stomach upset. If you miss a dose, skip it — don't take two together. Ask your doctor before changing anything.

Requires clinician review

Give · Organ donation

Organ & tissue pledge

A pledge records your wish. Under the Transplantation of Human Organs and Tissues Act, 1994, your family is still asked for consent at the time — so tell them now.

Step 3 of 4 · signing pending | KNOS · Kerala

✓ Your intent — ✓ Family informed — 3 Sign at hospital — 4 Registered with KNOS

Last step: sign at a registered hospital

Take your ABHA card to Demo General Hospital, Pathanamthitta (organ donation desk, ground floor · Mon–Sat, 09:00–16:00). Two witnesses sign with you.

What you'd like to donate

2 selected

- [x] **Kidneys** — Most needed · 2,800 waiting in Kerala
- [ ] **Liver** — Can help two people
- [ ] **Heart** — Within 4–6 hours
- [ ] **Lungs** — Within 6–8 hours
- [ ] **Pancreas** — For type 1 diabetes
- [x] **Corneas** — Up to 6 hours after death
- [ ] **Skin** — For burns patients
- [ ] **Bone & tissue** — Joints, tendons, valves

Select all | Clear

- [ ] Also donate my body for medical education

Pledges in Kerala

1,84,210 people have pledged · demo figure

Each donor can help up to 8 people. Your pledge stays private until it is needed.

Family & witnesses

Edit contacts

RM	Ravi Menon · husband — Next of kin · informed 12 Oct by SMS link	Acknowledged
SM	Sarojini Menon · mother — Witness 1 · will come to the hospital	Signing pending
TK	Thomas Kurian · neighbour — Witness 2 · not a relative	Signing pending

Send reminder to witnesses

Witness signatures

1 of 2 signed

Under the Transplantation of Human Organs Act, two witnesses sign — one must be a close relative. Ravi has signed; Sarojini's link expires on 24 Oct.

What the pledge means

Only after death is certified
Brain-stem death is certified by a board of 4 doctors, none from the transplant team.

Your family still decides
Doctors ask your next of kin. A pledge helps them say yes with confidence.

You can withdraw any time
One tap here, no reason needed. We tell KNOS within 24 hours.

No payment, no sale
Buying or selling organs is a crime. Allocation follows the state waiting list.

Ask the AI a question | Withdraw pledge
